Mini-Med Lecture 4

FISH and CHIPS and Beyond Clinical Genomics and Personalized Medicine

Mini-Med School, Feb 2019
Wednesday, February 27th, 2019
James Dermody, PhD

Professor, Dept of Microbiology and Molecular Genetics at Rutgers New Jersey Medical School.
What’s Up with Director to Consumer Genetic Testing?

Mini-Med School, Feb 2019
Wednesday, February 27th, 2019
Dr. Beth A. Pletcher is an Associate Professor of Pediatrics and Medicine at Rutgers New Jersey Medical School. She received her BS degree in Biology from Stanford University in 1978 and her MD from Rush Medical College in Chicago, IL in 1982. Dr. Pletcher completed three years of residency training in Pediatrics at Children’s Hospital of Los Angeles in 1985, and fellowship training in Human Genetics and Pediatrics at Yale University School of Medicine in New Haven, CT in 1987. She served on the Board of Directors of the American College of Medical Genetics (ACMG) for six years and is a past Chair of the American Academy of Pediatrics (AAP) Committee on Pediatric Workforce (COPW). She was the first Chair of the AAP Section on Genetics and Birth Defects, is a past liaison to the AAP Committee on Genetics, and served as an expert group member for an Academy Genetics in Primary Care Institute Quality Improvement Project. Dr. Pletcher also was Co-Chair of the University Hospital Bioethics Committee and serves as Co-Director of The Neurofibromatosis Center of New Jersey. She is a Fellow of the American Academy of Pediatrics and a Founding Fellow of the American College of Medical Genetics. Her clinical and research interests include: neurofibromatosis, autism, Fragile X syndrome, craniofacial disorders, cancer genetics, public policy on genetic screening, genetic education for primary care providers, pediatric workforce issues and, most recently, the impact of adverse childhood experiences on future mental and physical health.
