Department of Psychiatry

Transgender Health 2016

We are very excited to announce the 2016 spring conference of the Department of Psychiatry at Rutgers New Jersey Medical School. This year we are focusing on trans health in our communities.

A panel of experts will discuss the most recent developments in the field, from the fundamentals of gender identity (and salience of pronouns), to the complexities of working with transgender adolescents and transgender patients who are also ethnic/racial minorities. The conference will also feature a hands-on practicum on the nuts and bolts of everyday clinical work with transgender people.

Drs. Petros Levounis and Eric Yarbrough will co-chair the conference, which will draw both on state-of-the-art scholarship as well as on everyday clinical practice.

We'd love to have you join us on Friday, June 10!

7:30	Registration and Continental Breakfast	
8:30	Welcome from the Dean	Robert Johnson, MD, FAAP
