

## **2014 Pozen Community Service Scholars Summary Report**

The New Jersey Medical School expresses our gratitude to Dr. and Mrs. Pozen for their continued support and provision of funding that allows our students to continue to engage in initiatives that impact our community positively through service. Below is a description of the service efforts the students engaged in with the support they received. It is important to note that faculty members were actively involved in establishing and administering some of these projects, thereby building on our robust and ongoing commitment to the community.
