

# RUTGERS

New Jersey Medical School

## MY PROFILE

---

**David Prado**

**From:** Randolph, NJ

**College:** Rutgers University (New Brunswick)

**Major:** Engineering

**Racial/Ethnic Description:** Peruvian

**Goals/Interests:** My biggest interests in medicine are Pediatrics and Emergency Medicine. I enjoy being around children mostly from my days working at my mother's daycare, as well as love the fast paced, unexpected environment that is Emergency Medicine. My interest in research has been predominately laboratory work, with my most recent project dealing with inducing expression of transcription factor NeuroD1 and analyzing its effects on Cochlear Progenitor Cell (CPC) differentiation. However, I primarily enjoy teaching in my spare time, which is exemplified with my years of tutoring experience and current job at Kaplan Test Prep.
