

Critical Readings in Virology - TIII 555CQ

Course website: <https://njms.rutgers.edu/sgs/olc/tiii/index.php>

This course is designed for Ph.D. students in the I3 track.

Course description:

This new course will use a journal club format. Each lesson will consist of a student-led presentation, discussion, and critique of one or two papers from the scientific literature on viral infection and host response. Each lesson will be attended by the course director, who will provide information and feedback on the topics when needed.

Course objectives:

The goal of the format is to help students critical thinking, interpretation of data in published papers and the hot topic on virus-host interactions. Grading will be based on each student's participation and preparation. Successful completion of the course will satisfy the I³ requirement for 0.5 credit Critical Readings.

No textbook.

Grading methods:

- 1) Presentation 40%
- 2) Participation 60%

Course format:

Journal club.
