

RESIDENT PEDIATRICS BIBLIOGRAPHY

Lake, Carol L: Cardiac Anesthesia, 3rd ed. Stanford, Appleton & Lange, 1997.

Chapter 2 - Pathophysiologic Approach to Congenital Heart Disease

Chapter 3 - Cardiovascular Embryology

Chapter 14- Septal and Endocardial Cushion Defects and DORV Perioperative Management

Badgwell T. Michael: Clinical Pediatric Anesthesia. Philadelphia, JB Lippincott, 1997.

Chapter 8 - Anesthesia for the Ex-Premature and Ex-ECMO infant

Chapter 14- Common and Uncommon Coexisting Diseases that Complicate Pediatric Anesthesia

Chapter 15- Management of the Child with Major trauma

Brock-Utne, John G: Near Misses in Pediatric Anesthesia. Boston, Butterworth-Heinemann. 1999

A short and concise presentation of 47 pediatric anesthesia cases outlining specific (and common) problems, their solutions and further recommendations. References for each case are included.

Berry, Frederic A: Anesthetic Management of Difficult and Routine Pediatric Patients, 2nd ed. New York, Churchill-Livingstone, 1990.

Chapter 2 - General Philosophy of Patient Preparation, Premedication, and Induction of Anesthesia

Chapter 4 - Practical Aspects of Fluid and Electrolyte Therapy

Katz, Jordan & Steward, David J.: Anesthesia and Uncommon Pediatric Diseases, 2nd ed. Philadelphia, W.B. Saunders, 1993

Excellent reference detailing diseases that affect specific organ systems and their anesthetic implications. Chapters are included on infectious disease, head & neck syndromes, metabolic diseases and immune disorders.

Gregory, George A.: Pediatric Anesthesia, 4th ed. New York, Churchill-Livingstone, 2002.

Excellent general reference with author crossover from the Cote text.

Chapter 1 - Ethics

Chapter 13- Special Techniques (Hemodilution, ECMO, etc)

Appendix A: Useful Drugs

Appendix B: Normal Lab Values
