Dear Entering Student,

It is my pleasure to welcome you to Rutgers Biomedical and Health Sciences.

The following pages list our health and immunization requirements. Our policy protects you, our patients, and Rutgers staff and is based on CDC recommendations and NJ state law. Completing the requirements can take time, so keep this in mind as you schedule an appointment with your provider to complete the Immunization Record.

Please make sure your health care provider completes, signs and dates the Immunization Record and attaches all relevant labs. Review the checklist with your healthcare provider so that the appropriate tests are performed. Your provider may not be familiar with some of these requirements, but they are **REQUIRED**. The checklist may help to avoid the wrong tests being ordered at an increased cost to you, as any cost incurred related to the above requirements is your responsibility.

Once the Immunization Record is complete, log into the Student Health Portal at https://patient-rbhs.medicatconnect.com/ and

1. Combine the Immunization Record, lab reports, and imaging into one document and upload it under the Upload tab
2. Complete the Mandatory Health Form under the Forms tab

In order to fulfill the tuberculosis screening, either a 2 step PPD (consisting of 2 PPDs placed 1-3 weeks apart and read 48-72 hours after placement) or an FDA approved blood test for tuberculosis may be submitted.

The RBHS "Student Immunization & Health Requirements" Policy may be accessed here.

If you have any questions, cannot access the portal, or need a recommendation for a local health care provider, please contact Student Health Services at: 973-972-8219. Be sure to keep a copy of your paperwork for your own records.

Sincerely,

Noa'a Shimoni MD MPH
Director
