Objectives

At the end of the activity the learners should be better able to:

1. Understand the definition of health disparities vs. equity within the context of race and ethnicity
2. Recognize the key factors which lead to health disparities:
 - a. Social determinants of health
 - b. Implicit bias amongst health care providers
 - c. Institutional barriers
3. Use this foundation to learn about the health impacts of racism and COVID-19 on communities of color

Target Audience

This activity is designed for all faculty, residents, and fellows from all specialties, medical students, and residency/fellowship program coordinators.
